

KOM4531 ADVANCED INDUSTRIAL AUTOMATION SYSTEMS APPLICATIONS

ABOUT THE COURSE

- Experiments (%30)
 - Modbus RTU (% 7.5) - Modbus TCP (% 7.5) Before midterm
 - EtherCAT (% 7.5) - Plcnext (%7.5) After midterm
 - If you finish the experiment you dont need to attend the lectures about that experiment
 - Attendance will effect the grading of experiments
 - Early finishing will effect the grading of experiments
 - The answers you will give to the question about experiments will effect grading of experiments
- Midterm (%30)
 - About Modbus TCP and Modbus RTU
- Final (%40)
 - All of the experiments
 - Common information about communication protocols

ABOUT THE TIMETABLE

Week	Group A	Group B
1.Week	Orientation	Orientation
2.Week	Introduction (Communication)	Introduction (Communication)
3.Week	Modbus TCP Experiment	Modbus RTU Experiment
4.Week	Modbus TCP Experiment	Modbus RTU Experiment
5.Week	-	-
6.Week	Modbus RTU Experiment	Modbus TCP Experiment
7.Week	Modbus RTU Experiment	Modbus TCP Experiment
8.Week	Midterm	Midterm
9.Week	Introduction (Servo Motors&Drives)	Introduction (Servo Motors&Drives)
10.Week	Introduction (PLCnext)	Introduction (PLCnext)
11.Week	EthreCAT Experiment	PLCnext Experiment
12.Week	EtherCAT Experiment	PLCnext Experiment
13.Week	PLCnext Experiment	EthreCAT Experiment
14.Week	PLCnext Experiment	EtherCAT Experiment
15.Week		

QUESTIONS ?
